

About Airbrush Tanning:

Spray on tanning is a simple & safe process. The solution contains the active ingredient dihydroxyacetone (DHA) that reacts with the amino acids in the top layer of the skin to produce a healthy golden tan color. DHA is the only self-tanning ingredient approved for safe use by the FDA. While the actual process takes only minutes, the “tan” develops over the next several hours. SunDaze Tanning Studio uses Norvell “Amber Sun” Solution for:

- Natural Looking, “Just off the Beach Color” is good for your skin
- Lasts 7 – 10 days or longer with the use of one of our recommended “tan extenders”
- Immediate Golden Brown color
- Fast drying, non-sticky, streak free formula with NO ORANGE color
- Pleasant Raspberry-Almond Fragrance eliminates odor associated with sunless products
- Erythrulose additional bronzer extends the life of your sunless tan
- Contains Caffeine to help correct & prevent skin damage from over-exposure to the sun
- Skin Firming Copper Technology
- Look thinner, sexier; disguise cellulite, stretch marks, blemishes & imperfections

Also available disposable under-garments; glitter spray; aroma-therapy drops; clear & extra dark bronze solution; retail pre & post tanning products to take home.

BODY CONTOURING/CUSTOM BRONZING

Airbrush tanning vs. a spray booth allows the technician to use an adjustable amount of solution, enabling them to hide flaws & enhance certain areas of the body such as abs. Each application is monitored & controlled per individual; ideal for body building competitions.

single session

\$30.00 WHOLE BODY
\$15.00 Second Coat Recommended

*All sessions/packages are non-refundable
& non-transferable.

GIFT CERTIFICATES AVAILABLE

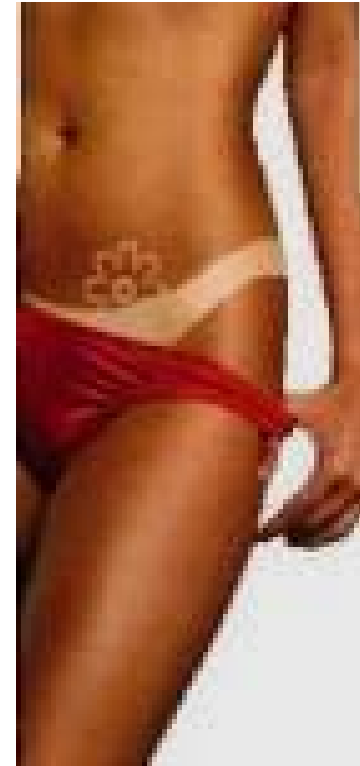

TAN TIPS:

What to do:

- **SCRUB & SHAVE IT!**
Exfoliate, Shave or wax before you get a spray tan for the best results!
- **OUTFIT CHECK!**
White clothes makes your tan pop, but not right after you are sprayed. Wear dark clothing instead. It doesn't stain but it can rub onto fabric.
- **MOISTURIZE AFTER!**
Moisturize after each shower to keep your skin hydrated. We recommend one with light DHA to extend your tan.
- **PAT DRY!**
Pat dry after washing or swimming. Avoid rubbing.

What NOT to do:

- **LOTIONS**
Don't use moisturizers, make-up or deodorant before tanning.
- **TOUCHING**
It will be hard at first but keep your hands off your sexy tan. You don't want your palms to get tanned too! Don't wash your hands for at least 4 hours after tanning.
- **SWEATING**
Don't exercise & avoid sweating until after your 1st shower.
- **SHOWERING**
Shower after 8 hours, the longer you wait the better. We recommend evening appts. which means you can sleep while the tan develops & shower first thing in the morning.
- **EXFOLIATING**
Don't exfoliate after you tan.

**SUNLESS
AIRBRUSH
